

# Food Action Planning Tool

What is the program?

What is the issue?

Who will it serve?

Who is responsible? (Who is the lead organization/  
person?)

How will it operate (what are the activities needed  
to make it successful)?

What resources are needed?

*Materials, equipment, supplies*

*Partners*

If the program is a success...

*What would you expect to see happen? (in the next  
year)*

*What would you like to see? (in 2-3 years)*

*What would you love to see? (in 5-10 years)*
